PROFILE

Product designer who *ships in code*. Nearly five years on B2B SaaS and commerce at startups, usually as the only designer: interaction design, design systems and production React. I built and run Project 831's booking product, and have a fix merged into coss ui, Cal.com's design system.

15→74%	₹5.6L	69%	+23%
bookings made self-serve at Project 831, May → Sep	taken through the 831 booking engine since May	of people sent the WhatsApp booking flow go on to book	checkout conversion after my redesign at Dukaan

EXPERIENCE

Travelopia · Product Designer & Design Engineer · specialist travel brands · Remote — Sep 2024 – now

- Set up the **design-system foundations** for Le Boat's move to a new platform, first as a consultant, then full-time.

BiteSpeed · Product Design Consultant · Contract — Oct 2024 – Jun 2026

- **Designed and built the AI Marketing Agent end to end**: the idea, UX and UI, the front end, and the analysis and prompts behind it.
- It reads a brand's whole send history, benchmarks it against ten competitors, prices each gap as monthly revenue, and writes ready-to-send campaigns plus a downloadable strategy report.

BiteSpeed · Product Designer · Bengaluru — Feb 2023 – Sep 2024

WhatsApp and omnichannel marketing for Shopify D2C brands, backed by Sequoia's Surge.

- **The only product designer**, across product, brand and growth. Named **Best Employee in three quarters**, 2023–24.
- Designed **Broadcasts**, the multichannel campaign composer, and **Journeys**, the drag-and-drop automation builder.
- Designed the ads, landing pages and the **investor deck** for the company's fundraise.

Dukaan · Product Designer · online store builder for Indian sellers — Jan 2022 – Feb 2023

- Redesigned checkout for a **+23% lift in conversion**; built **Dorsome**, the company's design system.
- Owned and shipped **10+ seller features**, including the seller dashboard, RTO optimiser and partial payments.

10kdesigners · Designer in Residence, then Design Mentor, in a product design cohort — Jul 2021 – 2024

Film & series, Mumbai · Production sound mixer — Sep 2018 – Mar 2021

Location sound on *The Fame Game* (Netflix), *Bandish Bandits* (Prime Video), *Hundred*, *Hostages* (Hotstar).

PROJECTS

Project 831 · Co-founder, design & engineering — Mar 2026 – now

A two-court pickleball venue in Jamshedpur. Case study: rkj-builds.github.io/project-831-case-study

- Designed and built the system it runs on, **0 → 1**: booking and payment inside WhatsApp (Cloud API, Flows) and on the web, a staff desk PWA, memberships and a kids' programme. **₹5.6 lakh** taken since May.
- React 19, Vite, Supabase Postgres, Vercel, Razorpay; 1,500+ commits, 2,700+ tests, built with Claude Code.

Venue dashboard on coss ui · Open source — Oct 2026

Live: rkj-builds.github.io/slot-picker · github.com/rkj-builds/slot-picker

- Rebuilt 831 as a venue SaaS on **coss ui** (Base UI + Tailwind): bookings, availability, programmes, members, payments, inbox, roles and settings, behind one typed data adapter so the real backend drops in screen by screen.
- Built **headless primitives** for what coss lacks (slot grid, recurrence, time zones), keyboard- and axe-tested. Fixed a locale bug in coss ui's Calendar: **merged** (cosscom/ui #890).

SKILLS

Design	Product and interaction design, design systems and tokens, component libraries, prototyping, information architecture, accessibility (WCAG), motion, Figma
Engineering	React, TypeScript, Tailwind CSS, Base UI and headless components, Vite, Vitest and Testing Library, Supabase / Postgres, Vercel
Product & AI	0 → 1 products, B2B SaaS, Shopify and WhatsApp commerce, payments, LLM features and prompt design, AI-assisted development with Claude Code

EDUCATION

Tata Institute of Social Sciences · BSc Filmmaking, Sound Design & Recording — 2015 – 2018
