Rahul Jha · Product Design Engineer

Bengaluru, India · Remote · rahul.rkj55@gmail.com · rkj-builds.github.io · linkedin.com/in/rahuljha5 · github.com/rkj-builds

Product designer who ships in code: booking products, design systems and the headless primitives under them. Nearly five years at startups, usually as the only designer.

Selected work

Court booking on coss ui · open source · rkj-builds.github.io/slot-picker · code — Oct 2026

- Rebuilt Project 831's booking product on **Cal.com's coss ui** and Base UI, all 55 components unmodified: booking with part payments and holds, the venue desk, members, payments and settings.
- **Headless primitives of my own** where coss has none (slot grid, recurrence, time zones), keyboard- and axe-tested. 434 tests, 74 demo states.

coss ui · Calendar locale fix · merged · github.com/cosscom/ui/pull/890 — Oct 2026

- The month dropdown ignored the calendar's locale: a one-line fix to Cal.com's design system.

Project 831 · co-founder, design & engineering · case study — Mar 2026 – now

- A two-court pickleball venue in Jamshedpur. I designed and built the system it runs on: booking and payment inside WhatsApp (Cloud API, Flows) and on the web, a staff desk PWA, memberships and a kids' programme.
- Self-serve bookings went from **15% to 74%** (May to September); **₹5.6 lakh** taken through the system since May; **69%** of people sent the WhatsApp flow go on to book.
- React 19, Supabase Postgres, Razorpay, Vercel. 1,698 commits, 70% co-authored with Claude Code.

Experience

Travelopia · Product Designer & Design Engineer · remote — Sep 2024 – now

- Set up the **design-system foundations** for Le Boat's move to a new platform, first as a consultant, then full-time.

BiteSpeed · Product Design Consultant · contract — Oct 2024 – Jun 2026

- **Designed and built the AI Marketing Agent end to end**: the idea, UX and UI, the front end, and the analysis and prompts behind it. It benchmarks a brand against ten competitors and prices each gap in revenue.

BiteSpeed · Product Designer · Bengaluru — Feb 2023 – Sep 2024

- **The only product designer**, across product, brand and growth, for WhatsApp marketing on Shopify (backed by Sequoia's Surge). Named Best Employee in three quarters, 2023–24.
- Designed Broadcasts, the campaign composer, and Journeys, the automation builder; the ads, landing pages and investor deck.

Dukaan · Product Designer · store builder for Indian sellers — Jan 2022 – Feb 2023

- Redesigned checkout for a **+23% lift in conversion**; built Dorsome, the design system; shipped 10+ features.

10kdesigners · Designer in Residence, then Design Mentor — Jul 2021 – 2024

Film & series, Mumbai · Production sound mixer — Sep 2018 – Mar 2021

Location sound on *The Fame Game* (Netflix), *Bandish Bandits* (Prime Video), *Hundred* and *Hostages* (Hotstar).

Skills

Design	Product and interaction design, design systems and tokens, prototyping, accessibility (WCAG), motion, Figma
Engineering	React, TypeScript, Tailwind CSS, Base UI, Vitest and Testing Library, Supabase / Postgres
AI	AI-assisted development with Claude Code; LLM features and prompt design

Education

Tata Institute of Social Sciences · BSc Filmmaking, Sound Design & Recording — 2015 – 2018
